## ABOUT

I am Jenish Soni, a final-year Computer Engineering student and aspiring Full Stack developer with expertise in designing and implementing scalable, robust web solutions through full-stack development. With a strong foundation in Full Stack development principles and architecture, I specialize in crafting efficient, user-focused applications that solve real-world challenges. My work is characterized by technical precision, creative problem-solving, and a commitment to delivering innovative web solutions that drive impactful results.

## SKILLS

- **Programming Languages**: C++, C, Python
- **Frontend:** HTML, CSS, Tailwind CSS, JavaScript, React,
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Tools & Technologies:** Git, Github, RESTful APIs, JWT
- **Other:** Data Structures & Algorithms, Problem Solving

## PROJECTS

**Restaurant In-house Ordering System:**
- Developed a seamless in-house ordering system using MERN stack (MongoDB, Express.js, React.js, Node.js) to optimize restaurant operations.

**Shriji Education Services & Visa Consultancy Website:**
- Designed the Shriji Education Services and Visa Consultancy website using React, Tailwind CSS, FastAPI for smooth user experience.

**Glint's Website:**
- Developed Glint's responsive website using Next.js for fast loading and optimized performance.

**AWS Cloud Club Website:**
- Built the AWS Cloud Club website with an event management portal using React, Tailwind CSS, Supabase.

## CERTIFICATIONS

- Google Cloud fundamentals and Generative AI Study Jams
- MERN full-stack web development
- Python Bootcamp

## EDUCATION

**Silver Oak University (2021 - 2025)**
Bachelor of Technology in Computer Engineering; **Current CGPA: 9.40**

**BITS High School (2020- 2021)**
12th Science; **Percentage: 71.2%**

**M.T High School ( 2019)**
10th Standard; **Percentage: 76.1%**
